

Jones De Lima Afonso

Full Stack Developer

São Paulo (11) 95550-9876

jonesrasta@gmail.com www.linkedin.com/in/joneslima <https://github.com/jonesrasta>

Professional Summary

Mid-Level Full Stack Developer with strong experience in building scalable web applications and hands-on blockchain integration. Skilled in React, Node.js, TypeScript, REST APIs, CI/CD pipelines, and cloud environments (AWS). Practical experience developing smart contracts with Solidity and integrating decentralized applications using Web3.js and Ethers.js. Background in Web2 systems with a clear transition to Web3, focused on performance, security, and real-world business impact.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, Vue.js, React.js, Next.js, Typescript, Tailwind, UX/UI Design
- **Backend:** Node.js, Java, REST APIs
- **Databases:** MySQL, PostgreSQL (relational), MongoDB (NoSQL)
- **Cloud & Tools:** AWS, Git, Jira, Figma
- **Web3 & Blockchain (Foundational):** Smart Contracts (Solidity – basic understanding), Web3.js, Ethers.js, Blockchain fundamentals, Wallet integration (MetaMask), Decentralized Applications (dApps – concepts)
- **Methodologies:** Agile (Scrum), Planning Poker

Professional Experience

FULL STACK DEVELOPER (Contract / Web3 Project) · SOUND CHAIN

APR 2024 – DEC 2025

- Architected and developed a full stack decentralized application (dApp) with native blockchain integration
- Designed and implemented smart contracts in Solidity for on-chain content registration and automated royalty distribution
- Integrated frontend applications with Ethereum-compatible networks using Web3.js and Ethers.js
- Applied blockchain security best practices, focusing on immutability, data integrity, and trustless execution
- Managed CI/CD pipelines and automated deployments using Git, GitHub Actions, and Vercel
- Collaborated in defining Web3 architecture, balancing on-chain and off-chain components for performance and cost efficiency

FULLSTACK DEVELOPER · MIRANDA ADVOCACIA

NOV 2023 – APR 2024

- Developed a full stack application using React and Node.js, resulting in a 40% reduction in load time and improved mobile user experience.
- Designed UX/UI and visual identity, increasing user retention by approximately 60%.
- Delivered the project on time, achieving high client satisfaction and strengthening the digital presence.

FULLSTACK DEVELOPER · LIVITY AGENCY

JAN 2023 – NOV 2023

- Developed and maintained web applications using React.js, Next.js, Express.js, TypeScript, and Tailwind CSS
- Built responsive, high-performance user interfaces focused on conversion, accessibility, and user engagement
- Integrated frontend applications with RESTful APIs, ensuring data consistency and scalability
- Collaborated with design and marketing teams to translate business requirements into user-centered digital solutions
- Applied best practices in component-based architecture, clean code, and performance optimization

FULL STACK DEVELOPER · ACQUA VERO FINANCIAL SERVICES

AUG 2022 – JAN 2023

- Developed modern interfaces using Vue.js 3, Vite, JavaScript, HTML, and CSS, focusing on performance and responsiveness.
- Optimized components and state management, reducing load times and improving user experience.
- Implemented CI/CD pipelines using GitHub Actions, accelerating delivery cycles and reducing production failures.
- Developed and maintained backend APIs and services using Laravel 10 and PHP 8.1, with a focus on security, scalability, and system stability.
- Ensured efficient integration between frontend and backend, prioritizing performance, reliability, and reduction of operational errors.

GRAPHIC DESIGNER | MOTION DESIGNER · OPEN FINANCIAL SERVICES

DEZ 2021 – AUG 2022

- Developed consistent design systems, ensuring visual standardization and increased efficiency within the design and development team.
- Created professional interfaces in Figma, optimized for usability and conversion.
- Designed complete visual identities (branding) that strengthened brand positioning and recognition.
- Produced graphic materials and animations using Photoshop, Illustrator, After Effects, and Premiere, enhancing the visual quality of campaigns and communications.
- Developed Motion Design assets and animations that increased engagement on social media and in corporate presentations.

IT SUPPORT ANALYST · PAULA & PAULA

DEZ 2013 – OCT 2019

- Installed, configured, and maintained hardware and software systems
- Managed Linux servers and provided technical support
- Troubleshoot IT issues and evaluated new technologies

Education

2022 – 2024

SYSTEMS ANALYSIS AND DEVELOPMENT · ANHEMBI MORUMBI UNIVERSITY

Courses & Certifications

FULL STACK & BACKEND DEVELOPMENT · IMPACTA

Java, Java Web, OOP, Web Services, MySQL, Scrum

SOFTWARE ENGINEERING · FIAP

Architecture, REST APIs, Microservices, DevOps, Testing

MOBILE DEVELOPMENT WITH FLUTTER · SANTANDER BOOTCAMP

Component-based architecture, REST integration, deployment

BLOCKCHAIN DEVELOPER · BINANCE BOOTCAMP

Blockchain fundamentals, Smart Contracts with Solidity, Ethereum Virtual Machine (EVM), Web3 architecture, Wallet integration, Token standards (ERC-20, ERC-721), Decentralized Applications (dApps), Blockchain security basics

BLOCKCHAIN ADVANCED · FIAP

Advanced smart contract development with **Solidity**, Ethereum Virtual Machine (EVM) internals, Advanced ERC standards (ERC-20, ERC-721, ERC-1155), Smart contract security principles, Gas optimization techniques, Decentralized finance (DeFi) concepts, On-chain vs off-chain architecture, Smart contract testing and deployment workflows

REACT & TYPESCRIPT · DIO

Component-based architecture, REST integration, deployment

VUEJS 3 · ALURA

Components, Composition API, TypeScript integration

DEVOPS & AGILE CULTURE · FIAP

CI/CD concepts, metrics, UML

AGILE & SCRUM DEVELOPMENT · IMPACTA

Scrum framework, backlog management, Planning Poker

UX/UI & PRODUCT DESIGN · FIAP / ALURA

Usability, prototyping, user research
